SUSHANT BUDHATHOKI CHHETRI

CYBERSECURITY ANALYST | IT SUPPORT | JUNIOR SECURITY OPERATIONS

Sydney, NSW | 0405 620 057 | sushantbudhathoki2077@gmail.com | linkedin.com/in/sushant-budhathoki-chhetri-a2b9b4282

PROFESSIONAL PROFILE

Information Technology graduate with hands-on academic experience in vulnerability assessment, network security, ethical hacking and cloud-connected IoT security. Familiar with Nmap, Wireshark, Metasploit, Kali Linux, authentication, access control, firewalls, VPNs and IDPS concepts. Brings proven team leadership, customer communication and operational discipline from a fast-paced venue environment. Seeking an entry-level cybersecurity, IT support or security operations role.

TECHNICAL SKILLS

Security: Vulnerability assessment, threat analysis, penetration-testing fundamentals, incident handling, risk analysis, IAM, cryptography

Tools: Kali Linux, Nmap, Wireshark, Metasploit, VirtualBox, Windows, Linux

Networking: Firewalls, VPNs, IDPS, packet analysis, access control, network-security fundamentals

Programming & scripting: Python, Bash, PowerShell, C, C++, Java

Professional: Problem solving, critical thinking, teamwork, stakeholder communication, project coordination

SELECTED CYBERSECURITY PROJECTS

Network Vulnerability Assessment | **Sydney Institute of Higher Education** | Aug 2024 – Oct 2024

- Evaluated a real-world organisation's digital infrastructure to identify cyber threats, vulnerabilities and business risks.
- Assessed authentication, access-control, cryptographic, firewall, VPN and intrusion-detection/prevention controls.
- Applied risk-analysis and incident-handling principles and recommended security technologies to reduce exposure.
- Considered emerging risks affecting IoT and cloud-computing environments and proposed practical mitigations.

Ethical Hacking Lab | **Sydney Institute of Higher Education** | Jul 2024 – Sep 2024

- Conducted authorised lab simulations involving phishing, packet analysis, brute-force testing and vulnerability discovery.
- Used Wireshark to inspect network traffic and Nmap to identify hosts, services and potential weaknesses.
- Used Metasploit in a controlled environment to explore Windows vulnerabilities and understand defensive priorities.
- Evaluated WordPress access controls and established a secure IoT-to-AWS connection focused on data integrity.

PROFESSIONAL EXPERIENCE

Cellar Team Leader | **Merivale – Coogee Pavilion** | Sep 2024 – Present | Sydney, NSW

- Coordinate cellar operations and support team workflow in a high-volume, multi-area hospitality venue.
- Maintain stock availability, storage standards and safe manual-handling practices while responding to shifting service priorities.
- Communicate clearly with managers and service teams, resolve operational issues and support reliable handovers.
- Apply workplace safety, cybersecurity-awareness and compliance training in daily operations.

Co-Founder & Manager | **Vision Martial Arts Academy** | 2023 – 2024 | Sydney, NSW

- Manage day-to-day operations, community engagement and digital promotion for a martial arts academy.
- Create social-media content and coordinate communications, strengthening planning and stakeholder-management skills.

Marketing & Technical Manager | **Kenpo Kai Australia** | 2022 – 2023 | Sydney, NSW

- Supported website updates and digital communications while coordinating social-media strategy and event promotion.
- Worked across technical and non-technical tasks, translating operational needs into practical digital improvements.

EDUCATION & DEVELOPMENT

Bachelor of Information Technology | **Sydney Institute of Higher Education** | 2023 – 2026 | Sydney, Australia

- Cybersecurity result: High Distinction (89/100); overall semester performance reported at Distinction level.
- Relevant areas: network security, risk management, ethical hacking, cloud security and programming.

Relevant workplace training: Cyber Security Awareness (2024, FY26 and 2026); Respect at Work; Manual Handling; Managing Customer Behaviour.
